About Karthik

He has 24+ years of experience in digital marketing, personnel branding, strategic planning, new technologies and direct marketing, and he specializes in educating clients about how to enhance their brand strategies and digital marketing methods to stay competitive.

His digital & technical interviews have been broadcast on a lot of TV channels, YouTube channels, and he provides consulting & ideas for developing your company within a minimum of six months. He has been bringing your company to the next level for many years.

His case study has been published in Tamilnadu Government Plus 2 Textbook. Students will study it for the next 15 years

You are your brand, so brand yourself before others do...
